While vacationing in Las Vegas, Kimberly and Michael both tried their luck and hit the jackpot. She was at the nickel slots and he was shooting dice and both hit their winning streak that night when they met each other. After their courtship, Michael brought

Kimberly back to Vegas to all the places they first met, but everything didn't go as planned. A nervous Michael was sweating through his clothes so much that he eventually just jumped into a pool fully clothed and asked Kimberly to marry him! Now New York City residents, a Southern California vacation prompted the couple to have a destination wedding.
